## Pam's Playground Update

WE ARE DONE FUNDRAISING!! You read that right - we are FINISHED!! Our incredible community has rallied and in one short year we have blown our goal out of the water and raised **\$227,000** for Pam's Playground!! Our original goal was \$150,000 and we raised it to \$165,000 last May. Then in June, we partnered with the Municipality of Crapaud to apply for funding through the Rural Growth Initiative Fund (a provincial grant). We applied for \$50,000 and crossed our fingers hoping that this would complete our fundraising campaign. In August we were notified that we were actually given \$100,000!!! We are shocked, surprised and so incredibly grateful! These extra funds will allow us to add a few extra accessible features to our playground that we couldn't add before. 😊😊😊

**So What's Next?** → Right now we are focusing on some upgrades to our basketball court (also a part of the Pam's Playground project). We are planning on having basketball backboards & rims painted, and an Englewood family has graciously donated new basketball nets. We are installing an equipment storage box on the court as well that will contain four-square balls, basketballs and disc golf discs. They're free for everyone to use so we ask that you please return equipment after use 😊 Lastly we are working on ordering & installing benches for around the court. This is proving to be a bit of a process so please bear with us! The play structure is slated for installation in May 2024. This is entirely weather dependent based on the status of the ground in the spring so we don't have an exact date yet.

**Bonus:** Teachers at Englewood use FM systems (a microphone & speaker combination) to communicate with students. They desperately need to be replaced! The new systems - "FrontRow Juno System" - come recommended by the Public Schools Branch, but they are expensive, ~\$2,000 each! BUT we have some great news! In the spring of 2023 the Home & School voted to set aside \$4,000 of our existing funds to top off the Pam's Playground fundraiser, if needed. Because we did SO well fundraising, the Home & School didn't need to use these funds, so at our last meeting we voted to use these funds to purchase TWO more FM systems for the classrooms! Thank you for your support!!
